Spirit Hunt
ISLAND TREASURE HUNTS

Turn your island into *the adventure.*

Teams follow a treasure map of your island on their phones, solve tasks at every stop, steer by a compass with glowing eyes and dig up a hidden treasure.

HOW IT PLAYS

Teams play on their own phones in the browser, with nothing to install. We bring the map, the story, the tasks, the hardware and the game master.

A treasure map of your island

Each team's trail drawn live; X marks every spot reached.

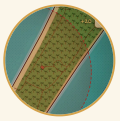

Tasks everywhere

Photo challenges and island puzzles, judged in seconds.

Teams on their own routes

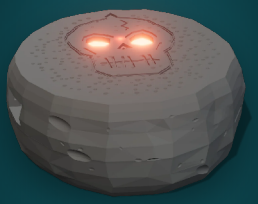

Small teams, each with its own order of tasks.

A hidden treasure

Every task shrinks the search circle; our beacon sings when a team is close.

THE COMPASS

Designed and built by us. Turn until its eyes glow red, then walk that way. They blink when you arrive.

WRONG WAY THIS WAY
